

**KLR CDR 150**

# CDR 150 — Core drill rig

## CDR 150 — Core drill rig (NQ/HQ)

**Compact and reliable for mineral exploration and geotechnical investigations.**

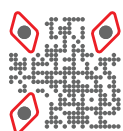

A 101 HP diesel engine drives a strong mast (5,200 kgf pull-up, 3,100 kgf pull-down) and a wide-range rotary head (300-900 rpm, 30-90 kg·m) to deliver consistent NQ/HQ core recovery. Achieves up to 150 m (NQ) and 100 m (HQ) in mixed formations with quick set-ups and steady penetration.

## Technical Specifications

### Technical Data

### Parameters

Hole Diameter NQ HQ	75.7mm 96.0mm
Depth NQ HQ	150M 100M
Prime Mover	Diesel Engine -101 HP
Mast Maximum Pull Up Force Maximum Pull Down Force	5200 Kgf 3100 kgf
Rotatory Head Max Speed Max Torque	900 - 300rpm 30 - 90 Kg.m
